INDEX TO VOLUMES I TO XXXI

	VOL.	PAGE
Abies Canadensis, occurrence in eastern North Carolina....	1	86
Acid phosphate, manufacture of, PHILLIPS	2	33
Acid phosphate, changes in bottled samples with constant percentage of water and ordinary temperature, PHILLIPS..	5	22
Agricultural surveys of South Carolina, HOLMES.....	7	89
Algebraic form, O/O, CAIN.....	19	3
Alcohol, MACNIDER	25	150
ALLER, HENRY DAY		
Summary of recent experiments on the culture of the diamond-back terrapin at the Fisheries Laboratory, Beaufort, N. C.	26	60
Notes on the description of the more common bivalves of Beaufort, N. C.	28	76
Alumina, solubility in sulphuric acid, GRISSOM.....	41	56
Amanitas of North Carolina, BEARDSLEE.....	24	115
Ammonia hydrate, action on lead chloride, BORDEN.....	1	43
Ammonia and citric acid, physical properties of solutions, HALL and BELL	27	103
Ammonia and ethyl-phospho-platino-chloride, character of compounds, HERTY and DAVIS	24	92
Ammonium citrate for determination of reverted phosphoric acid neutrality, PHILLIPS	3	58
Ammonium citrate, préparations of neutral solutions by the conductivity method, HALL	27	112
Ammonium citrate, methods of preparation of neutral solutions, BELL and COWELL	29	28
Ammonium cyanate, transformation to urea, WHEELER.....	28	146
Amphibians of North Carolina, BRIMLEY.....	30	195
Analysis, new and improved methods, HINSDALE.....	7	52
Animal life of North Carolina, with suggestions for a biological survey, SHURMAN	30	69
Anthranilic acid, bromination, WHEELER and OATS.....	26	26
Antiquities, Indian, Caldwell County, SPAINHOUR.....	3	45
Army-worm moth, the seasonal distribution at Raleigh, C. S. BRIMLEY	31	61
Arsenic pentachloride, BASKERVILLE and BENNETT.....	18	I 29
Asarum, glabrous-leaved species of the Southern United States, ASHE	41	31
ASHE, WILLIAM WILLARD		
Notes on the forest resources of North Carolina.....	10	5
The long-leaf pine and its struggle for existence.....	11	1
A new post oak and hybrid oaks.....	11	87
The glabrous-leaved species of Asarum of the southern United States	14	31

ASHE, WILLIAM WILLARD—*Continued*			
Notes on Darbya and Buckleya	14		46
Robinia Boyntonii sp. nov	14		51
The dichotomous groups of Panicum in the eastern United States	15		22
Notes on grasses	15		112
New east American species of Cratægus	16		70
Some dichotomous species of Panicum	16		84
Some east American species of Cratægus	17	I	4
Some east American species of Cratægus II	17	II	6
New east American thorns	18	I	17
Studies of brambles	19		8
New North American thorns	19		10
East American thorns	20		47
ATKINSON, GEORGE FRANCIS			
The cigarette beetle	3		86
Notes on the orchard Scolytus	3		74
A sketch and biography of Nicholas Marcellus Hentz	4	I	13
A new trap-door spider	4	I	16
A family of young trap-door spiders	4	I	26
Descriptions of some new trap-door spiders; their nests and food habits	4	I	33
Preliminary catalogue of the birds of North Carolina, with notes on some of the species	4	II	44
Singular adaptation in nest-making by an ant, *Cremastogaster Lineolata*, Say	4	II	88
A remarkable case of phosphorescence in an earth-worm	4	II	89
Observations on the female form of *Phengodes Laticollis*, Horn	4	II	92
New instances of protective resemblance in spiders	5		28
Note on the tube-inhabiting spider, *Lycosa Fatifera*, Hentz	5		30
Soaring of the turkey vulture, *Cathartes Aura*	5		59
Nematode root galls	6		81
Some erysipheæ from Carolina and Alabama	7		61
Some cerosporæ from Alabama	8		33
Some fungi of Blowing Rock, N. C. (with H. Schrenk)	9		95
Additions to the erysipheæ of Alabama	10		74
Some septoriæ from Alabama	10		76
Additional note on the fungi of Blowing Rock, N. C.	10		78
Atom, recent conceptions of, VENABLE	30		117
Atomic weights, recalculations, VENABLE	5		98
Atomic weights, proper standard, VENABLE	7		75
Atomic weights and their natural arrangement, VENABLE	11		67
Auriferous sulphides, chlorination, THIES	5		68
Avifauna of North Carolina, additions since Prof. Atkinson's catalogue in 1887, SMITHWICK	8		16
Ditto, continuation	9		61

	VOL.		PAGE
Bacterial study of the blank cartridge, DOLLY	24		23
BAILEY, STRATFORD C. H.			
The Alexander County meteoric iron	8		17
BANCROFT, WILDER DWIGHT			
Inorganic chemistry and the phase rule	20		39
BANDY, JAMES MARCUS			
To set slope stakes when the surface is steep but slopes uniformly	9		82
Barium chromate, solubility, WILKES	2		90
Barium acetate, attempts at forming, ROBERTS	1		50
BASKERVILLE, CHARLES			
An example of river adjustment (with R. H. MITCHELL)	9		64
A comparison of the methods of separation and estimation of zirconium	10		45
Improvement in the method of preparing pure zirconium chlorides	11		85
Reactions between copper and concentrated sulfuric acid	12	I	1
Zirconium sulphite (with F. P. VENABLE)	12	I	16
Reduction of concentrated acid by copper	13		24
The oxalates of zirconium (with F. P. VENABLE)	14		4
The halogen salts of zirconium (with F. P. VENABLE)	14		12
On the universal distribution of titanium	16		52
The occurrence of vanadium, chromium and titanium in peats	16		54
Note on a qualitative test for tin	16		80
Note on a case of spontaneous combustion	16		81
On the Adie and Wood method for the determination of potassium (with I. F. HARRIS)	17	I	18
On the existence of a new element associated with thorium	18	I	1
Arsenic pentachloride (With H. H. BENNETT)	18	I	29
Mercurious sulphide	19		61
Science and the people	20		68
BATTLE, GASTON			
The action of phosphorous upon certain metallic salts	7		80
BATTLE, HERBERT BEMBERTON			
The effect of pulverization on fertilizer samples	3		27
On the loss of moisture in bottled samples	3		30
An improved wash-bottle for chemical laboratories	3		32
A comparison between the Washington and Atlanta methods for the estimation of reverted phosphoric acid in commercial fertilizers	3		48
Analyses comparing the bituminous coal of North Carolina and Tennessee	3		51

	VOL.	PAGE
BATTLE, HERBERT BEMBERTON—*Continued*		
On the effect of using different amounts of acid phosphate in the determination of soluble phosphoric acid	3	53
On the determination of moisture in commercial fertilizers	3	54
On the neutrality of standard ammonium citrate for the determination of reverted phosphoric acid	3	58
On the change in superphosphates when they are applied to the soil	5	111
BATTLE, KEMP PLUMMER		
Dates of the flowering of plants (with J. PHILLIPS and and R. H. BATTLE)	1	45
Dates of the foliation of plants (with J. PHILLIPS and R. H. BATTLE)	1	46
Elisha Mitchell, D.D.	30	157
BATTLE, RICHARD HENRY		
Dates of the flowering of plants (with J. PHILLIPS and K. P. BATTLE)	1	45
Dates of the foliation of plants (with J. PHILLIPS and K. P. BATTLE)	1	46
BEARD, JOHN GROVER		
The collection and cultivation of crude drugs in North Carolina, with special reference to the culture of hydrastis and belladonna	31	....
BEARDSLEE, HENRY CURTIS		
The amanitas of North Carolina	24	115
Notes on new and rare species of fungi found at Asheville, N. C.	31	145
Beaufort laboratory work, GEORGE	29	94
Beetle, cigarette, ATKINSON	3	68
BELL, JAMES MUNSIE		
The rate of extraction of plant food constituents from the phosphates of calcium and from a loam soil	26	116
Physical properties of aqueous solutions containing ammonio and citric acid (with R. A. HALL)	27	103
The distribution of ammonia between water and chloroform (with A. L. FEILD)	27	119
Methods for the preparation of neutral solutions of ammonium citrate (with C. F. COWELL)	29	28
Electromotive force of silver nitrate concentration cells (with A. L. FEILD)	29	45
BENNETT, HUGH HAMMOND		
Arsenic pentachloride (with C. BASKERVILLE)	18 I	29
Bermuda grass seed, viable, produced in locality of Raleigh, TILLMAN	28	95
Biological survey of North Carolina, suggested, SHERMAN	30	69

	VOL.		PAGE
Birds of North Carolina, preliminary catalogue with notes on some species, ATKINSON	4	II	44
Birds, do snakes charm? COBB	10		98
Birds in eastern North Carolina, nesting habits, PEARSON	15		17
Birds of Chapel Hill, preliminary catalogue with notes on some species, PEARSON	16		33
Birds, number of species observed in one day at Raleigh, BRIMLEY	25		54
Birds, song periods, BRIMLEY	25		59
Birds, relation to farms and gardens, BRIMLEY	26		62
Birds of North Carolina, peculiarities in the distribution, SHERMAN	26		71
Birds of Chapel Hill, with particular reference to migrations, FEILD	28		16
Bivalves of Beaufort, distribution of more common species, ALLER	28		76
Blood, fall in Chatham County, VENABLE	1		38
Blue Ridge Highway, crest, HICKERSON	27		160
Boracic acid, distribution among plants, CALLISON	7		14
Boracic acid, occurrence as impurity in caustic alkalis, VENABLE and CALLISON	7		21
BORDEN, JOHN LEMUEL			
Action of ammonia on lead iodide	1		43
Solubility of North Carolina phosphate rock	1		53
Magnetite from Orange County	1		87
Botany as a disciplinary study, MCCARTHY	6		33
Brambles, ASHE	19		8
BRASWELL, ARCHIBALD			
List of the butterflies collected at Chapel Hill, N. C.	5		19
BRIMLEY, CLEMENT SAMUEL			
The box tortoises of southeastern North America	20		27
Working up the entomological fauna of North Carolina (with F. SHERMAN)	20		134
A case of snakebite	20		137
Further notes on the reproduction of reptiles	20		139
A descriptive catalogue of the mammals of North Carolina, exclusive of the cetacea	21		1
Notes on the scutellation of the red king snake, *Ophibolus Doliatus Coccineus*, Schlegel	21		145
Notes on the food and feeding habits of some American reptiles	21		149
Notes on some turtles of the genus *Pseudemys*	23		76
Artificial key to the species of snakes and lizards which are found in North Carolina	23		141
The salamanders of North Carolina	23		150

	VOL.		PAGE
BRIMLEY, CLEMENT SAMUEL—*Continued*			
A key to the species of frogs and toads liable to occur in North Carolina	23		157
Notes on the life zones in North Carolina (with F. SHERMAN)	24		14
On the number of species of birds that can be obesrved in one day at Raleigh, N. C.	25		54
Some notes on the song periods of birds	25		59
Remarks on the relations of birds to our farms and gardens	26		62
Catching hawk moths on flowers at dusk	27		97
Capture of Raleigh by the wharf rat	28		92
Zoo-geography, a study of life zones	29		10
The seasonal distribution of the army-worm moth at Raleigh	31		61
5-brom-2-animobenzoic acid, a new preparation, WHEELER	25		15
Brooks, Professor W. K., recollections and criticisms of some of his work, WILSON	26		153
BROWN, WADE HAMPTON			
Malarial pigment (hematin) as a factor in the production of the malarial paroxysm	28		97
BRYANT, VICTOR SILAS			
List of fishes in the museum of the University of North Carolina, with description of a new species	5		16
Buckleya, ASHE	14		46
Burial mounds, Indian, in eastern North Carolina, HOLMES	1		73
Burner, Bunsen, new form, VENABLE	4	II	103
Butterflies, list collected at Chapel Hill, BRASWELL	5		19
Buzzard must go, LAY	27		101
Caffein carbide, some of the properties, VENABLE and CLARKE	1		85
CAIN, WILLIAM			
Demonstration of the method of least work	8		5
The transition curve	8		105
On the fundamental principles of the differential calculus	9		5
The stone arch	10		32
Notes on the exact computation of the queen post truss	13		43
A method of laying out grades for sewers by aid of the transit	17	II	26
Notes on the algebraic form O/O	19		3
Note on imaginary roots of a cubic	19		39
Note on the fundamental bases of dynamics	28		68
Review	29		116
Calcium carbide, some of the properties, VENABLE and CLARKE	12	I	10
CALLISON, JAMES SCOTT			
On the distribution of boracic acid among plants	7		14

CALLISON, JAMES SCOTT—*Continued*	VOL.		PAGE
On the occurrence of boracic acid as an impurity in caustic alkalis (with F. P. VENABLE)	7		21
Camphoric acid, some new salts, EDWARDS	5		8
Camphoric acid, some new salts, MANNING	4	I	52
Carbon bisulphide, hydrated, VENABLE	1		69
Cassiterite from Kings Mountain, DABNEY	1		79
Cat, description of some of the muscles, WILSON and KIRBY	12	II	10
Catalan or blomary forge, HARRIS	8		67
Cellulose, some problems, WHEELER	21		106
Cercosporæ from Alabama, ATKINSON	8		33
Chemical energy, probable electrical nature, PATTERSON	25		62
Chloral-α-naphthylamine and chloral-β-naphthylamine, WHEELER and DANIELS	22		90
Chloral, condensation with primary aromatic amines II, WHEELER	23		98
Chloral, condensation with primary aromatic amines III, WHEELER and JORDAN	25		92
Chromium in peats, BASKERVILLE	16		54
Citric acid in peanuts, DE SCHWEINITZ	2		47
Citric acid, physical properties of aqueous solutions containing ammonia and citric acid, HALL and BELL	27		103
CLARKE, THOMAS			
Some of the properties of calcium carbide (with F. P. VENABLE)	12	I	10
A study of the zirconates (with F. P. VENABLE)	13		1
Clay deposits of North Carolina, HOLMES	12	II	1
Clinical medicine, relation of pharmacology, MACNIDER	26		93
Coal supply, exhaustion, VENABLE	11		25
Coals of North Carolina and Tennessee, comparative analysis, BATTLE	3		51
COBB, COLLIER			
Notes on the deflective effect of the earth's rotation as shown in streams	10		26
On the geological history of certain topographical features east of the Blue Ridge	10		94
Do snakes charm birds?	10		98
Sulphur from pyrite in nature's laboratory	11		30
Recently discovered mineral localities in North Carolina	20		38
Notes on the geology of Currituck Banks	22		17
Where the wind does the work	22		80
Notes on the geology of Core Bank, N. C.	23		26
The garden, field and forest of the nation	23		52
Salisbury's physiography	23		137
The landes and dunes of Gascony	26		82
Joseph Austin Holmes	26		167
Early English survivals on Hatteras Island	26		171

	VOL.	PAGE
COKER, DAVID ROBERT		
Field for economic plant breeding in the cotton belt....	24	9
COKER, WILLIAM CHAMBERS		
The woody plants of Chapel Hill, N. C.	19	42
Chapel Hill liverworts	20	35
Chapel Hill ferns and their allies.....	23	134
A visit to the Yosemite and the Big Trees.....	25	131
Additions to the flora of the Carolinas.....	25	168
A visit to the grave of Thomas Walter.....	26	31
Vitality of pine seeds and the delayed opening of cones.	26	43
Dr. Joseph Hinson Mellichampe.....	27	37
The garden of Andre Michaux.....	27	65
The plant life of Hartsville, S. C.	27	169
The seedlings of the live oak and the white oak.....	28	34
Our mountain shrubs	31	91
Observations on the lawns of Chapel Hill (with E. O. RANDOLPH)	31	113
Winter grasses of Chapel Hill.....	31	156
The lawn problem in the South.....	31	162
Collection and cultivation of crude drugs in North Carolina, with special reference to the culture of hydrastis and belladonna, BEARD	31	167
Colloidal chemistry, MACRAE.....	26	146
Color and structure in organic compound, JEFFRIES.....	29	81
Concentration cells, electromotive force, BELL and FEILD....	29	45
Conservation, PRATT	26	135
Convict labor in road construction, details of arrangements and organization, PRATT	29	63
Coöperation in matters chemical, presidential address, C. H. HERTY	31	65
Copper acetate, attempt at forming, ROBERTS.....	1	50
Copper, action of gasoline, VENABLE.....	1	88
Copper, reaction with concentrated sulphuric acid, BASKERVILLE	12	I 1
Copper, reduction of concentrated sulphuric acid, BASKERVILLE	13	24
Coral, *Siderastera radians*, and its post larval development, WILSON	22	41, 86
Corals, paleozoic, method of studying septal sequence, DUERDEN	19	32
Corundum of western North Carolina, PRATT and LEWIS....	22	8
Cotton-seed analysis, DE SCHWEINITZ	1	54
Cotton-seed products, rapid determination of oil, HERTY, STEM and ORR	25	21
COWELL, CHARLES FOWLER		
Methods for the preparation of neutral solutions of ammonium citrate (with J. M. BELL).....	29	28

	VOL.		PAGE
COX, HENRY LEON			
The stability of resin acids at slightly elevated temperatures (a correction), (with C. H. HERTY)	30		150
Cratægus, east American species, ASHE	16		70
Ditto	17	I	4
Ditto	17	II	6
